Sprint 1 Plan

University of Southern Mississippi

Class: CSS405

Instructor: Mrs. Lindy Lewis

Student: Tam Le

Sprint 1 Plan

Sprint Capacity & Personal Commitment

While this project will be done individually, the sprint capacity is all belonging to my responsibility.

Therefore, my commitment is that I will make sure that everything will be done on time under any condition within the best of my ability.

• Task List with Time Estimates •

While I have had finished my resume for several times within the professional advices from Ms. Jona Burton, I only need to spend around 5-10 minutes to update new information and filter unnecessary information out of my resume.

• Issues & Concerns •

Because I haven't had a strong computer science background, I have concerns that the lack of basic knowledge may affect or limit my performance. Because even I may have a good idea, a poor representing way will make my project result become unusable or misdirection.
